Patient Information

- **Name:** {{patient_firstname}} {{patient_surname}}
- **Patient ID:** {{patient_ID}}
- **Date of Birth:** {{birthday}}
- **Date of Prescription:** {{today}}

Physiotherapy Instructions:

Reason for Referral:

{{patient_firstname}} {{patient_surname}} is referred for physiotherapy to assist in rehabilitation following total hip replacement surgery on {{surgery_date}}. The goals of physiotherapy are to restore functional mobility, improve strength and range of motion, and prevent complications related to immobility, such as muscle atrophy or joint stiffness.

Status of Mobility and Gait:

{{mobility}} {{gait}}

Follow-Up Plan:

- Weekly physiotherapy sessions for the first 6 weeks, progressing based on the patient's condition.
- Further re-evaluation in 6 weeks to assess progress and adjust the rehabilitation plan.

Prescriber Information

- **Doctor's Name:** Dr. med. Fredy Meyer
